and when we were on the
way back to the station we
met a group of people who
were walking towards us. They
had a sign that said "We are
refugees from the
war in Libya". They
asked us if we could help them.
We told them we would do our best
to help them. We gave them some
water and food. They were very
grateful.

We stopped to help a woman
who was carrying a large
bag. She was trying to
cross the river but
she was having trouble. We
helped her across the river
and she thanked us.

We continued on our way to the
station. We saw many more
people along the way. Some
were walking alone, others
in groups. Some were
carrying bags or luggage.
It was a long walk but
we kept moving forward.

Sincerely,
Samantha
