DEAR CHAVER AVIDORI

Shalom

I am writing to you after two weeks of new life in Brazil and I think that I am now sufficiently up to date in my knowledge of what is happening in our movements in order to give you a ~~xxx~~ small report. I hope in doing so that we will maintain a needly contact between us.

1- SCHLICHIM:-

Next week as you already must know Hugo will return to Israel finishing by this all the question around his schlichut.

We are urgently in need of Moshe Frankel and send him as quickly as possible. Today Porto Alegre ~~xxx~~ isn't in conditions of survival without his aid and we think that it make no sense if the ~~dama~~ ^{age} of three monthes without scheliach lay down all the structure buildt by Arie.

I suppose that when my letter is in your hands you must already have heard a fresh report of Arie about all the peculiarities of this yshuv and how it is important ~~is~~ to settle there a scheliach.

Only to give you an example, Ioshua is staying for a week there and I will do the same next week.

2- SCHENAT HACHSHARÁ : WORKSHOP :-

I am happy in hearing only satisfactory news of our chaverim in Iotvata and so are my wishes in regard with the seminaries and the rest of their technit.

We are doing all our efforts in the organization of the next Schenat using all our experiences of what happened this year and we are almost sure of 7 chaverim of the movement and we will join another 4 or 5 good values and so send a homogeneal kvutza comprising age, sex and ideas.

We agree in Brazil that the first 4 monthes of Hachshara must be in an ~~israeli~~ kibbutz and thereafter they must go for some monthes to kibbutz Bror Chail.

I want an answer as clear as possible about the following issues:

- 1) Who will be in charge of the second schenat suposing that Bror Chail will only take his task when they are there after 5 monthes in Israel
- 2) The kvutza as homogeneal group and tnuati will not have more than 12 chaverim.
- 3) What about all the responsibilities of the Schenat in the hands of the maskirut olami?
- 4) We must know what to do and there must be a preparation in order that doesn't follow the same problems of the first ~~group~~ kvutza.

SCHELIACH TO RECIFE :-

I said once to you that there are many possibilities that the yshuv of Recife pays the integral loan of a scheliach who will teach at the Jewish school and he must be at same time chaver of Habonim and engage himself in giving full help to the movement there.

As you know the yshuv doesn't receive any scheliach and I think one can find his place in the yshuv.

It should be very important to receive a quick answer because the school year begins in February and I slightly touched on this issue with Recife, and so it will need a lot of time until they decide.

\$880 - Guisbaruth :-

Say to Eli that we are waiting for it.

That is all and I hope receive a favorable answer about all the issues above.
