Dear Dov:

Thank you for sending me the Crimson articles on the Safran affair. Nadav has been pretty badly treated by some of his colleagues, although the problem was probably an avoidable one. I must say that Spence's report read better than I had expected, and I am delighted that he fired the ME Center's executive committee right away.

Give my best to our mutual friends in Cambridge. I hope that all is well with you, and again thanks for sending along the articles.

Best,

A handwritten signature, likely of the sender, is written below the word "Best,". The signature is in cursive and appears to be "J. J. ...".
